

ECONOMIC BENEFITS

of Brownfield Redevelopment in Minnesota

71,163

Jobs created or retained from 1995-2016 through brownfield redevelopment projects funded by Minnesota Dept. of Employment and Economic Development

\$44

Average private investment leveraged for each \$1 in grant funding from MN DEED's two main brownfields grant programs

\$66 million

Incremental property taxes contributed by redeveloped brownfields enrolled in Hennepin County's Environmental Response Fund since its inception

7,217

Sites enrolled in the Minnesota Pollution Control Agency's two main brownfield cleanup programs since they began

Case Study: BAE Technology Center Fridley, MN

This site was once one of the highest scored Superfund sites in the US. The completion of the BAE Technology Center was an excellent demonstration of project coordination among multiple regulatory agencies. This extensive remediation and redevelopment project took place while the tenant's 500+ employees continued operations on-site.
